Laconic philosophical encyclopedia LaPhiEnia (LPE)

Oleg Starchen

© Oleg Starchen, 2018

ISBN 978-5-4493-2410-8

Created with Ridero smart publishing system

(I am not very well know English, so, I apologies for mistakes.) This encyclopedia is about the love of wisdom, and it is laconic, which is defined by its name. This “encyclopedia” is such not in the academic sense, but in the Hegel sense, because the great philosopher Georg Hegel created the original work “Encyclopedia of philosophical Sciences”. Therefore, a LAconic PHIlosophical ENcyclopedIA, or, for short, i.e., speaking laconically, LaPhiEnia (LPE) is also the ORiginal PHIlosophical ENcyclopedIA, OrPhiEnia.

© Oleg Starchen, 2018

First publishing in Ridero: 07.03.2018 © Oleg Starchen Translators: Yandex.Translator and Oleg Starchen

DEDICATED

to my historical friend,

to congenial but different,

to wise but mad,

to silent but evil,

to proolegoman’s philosopher,

to superman’s thinker,

as he himself said and considered himself, to “pole”

Wilhelm Nietzsche

and also to my big sister named Irene.

PROLOGUE

This encyclopedia is about the love of wisdom, and it is laconic, which is defined by its name. This “encyclopedia” is such not in the academic sense, but in the Hegel sense, because the great philosopher Georg Hegel created the original work “Encyclopedia of philosophical sciences”. Therefore, a LAconic PHilosophical ENcyclopedIA, or, for short, i.e., speaking laconically, LaPhiEnia is also the Original philosophical encyclopedia, OrPhiEnia. This encyclopedia is called as encyclopedia in the literal and obsolete, i.e. in historical terms, in ancient Greek, this word means “learning in a full sphere”, i.e., as far as possible within the framework of laconicism, the full sphere of learning. This is the third edition of the LPE, in contrast to the first edition of 2012 (on Proza.ru) and from the second edition on June 5, 2018 (on Ridero). This revised and supplemented, corrected and better edition, but quantity remains by definition the same – 300 laconic i.e. sore and gained ideas. Laconic encyclopedia means dictionary, because the verbose dictionary means encyclopedia. And it's not a simple philosophical dictionary, but the first orgaosophical and zeazrosophical dictionary. The articles in this dictionary or this encyclopedia represent aphorisms, laconisms, i.e. a concise definition of neologisms and neodilogsims (i.e., the dual neologisms, new combinations of two words). Diligence of the author was in the possible greater originality of the themes (because on the website of the Proza.ru, where it was first published this book in 2012, is the symbol © as a formal attribute of each production), so LPE is almost useless for those wishing to study the history of philosophy (although in LPE are articles that show original retrospective on the history of philosophy), but LPE is very useful, i.e. cognitive, to explore the latest trends and the future of philosophy, philosophy of the XXI century ad. Topics of LPE, in most cases, are neothemes, checked for originality to the most important Internet search engines. The explanation of these neothemes is based on the philosophy of supermind, i.e. Zeazrosophy, in that the core rod and the trend of LPE. In the first edition, articles of LPE were not arranged in a systematic manner, which was defined by the Hegelian and historical meaning of the encyclopedia, as well as its originality, its style – the stream of consciousness, the free arrangement of thoughts, as they could be invented and published, but in this edition the vocables are arranged in alphabetical order, which is more consistent with the genre of the encyclopedia or dictionary. LPE is the most concise manifestation of philosophy of Starchen as a philosophical movement. More verbose about topics of Laphienia, by the author's point of view, is in my manuscripts, but to publish this would be too long, difficult and uninteresting. The number of articles in the LPE is several hundred, but according to laconicism to read this encyclopedia can be fast and interesting.

This is edition 3.1, because this edition is translated on the English language. In this regard I express my thanksgivings to sites translate.yandex.ru and translate.google.com.

Edition 3.2 must be on Ridero etc.

This is edition 3 because i have added illustrations and some text betterments to this edition. In this regard, i express my thanksgivings to the site Pixabay.com (for beautiful illustrations) and sites Litres Samizdat.

Neothreologism Laconic philosophical encyclopedia first published 20 December 2011 © Oleg Starchen.

The first edition of the LPE published:

November 15, 2012 © Oleg Starchen. (edition 1.0, text)

Second edition of the LPE published:

5 June 2018 © Oleg Starchen. (edition 2.0, text)

Third edition of the LPE published:

3 July 2018 © Oleg Starchen. (edition 3.0, text), with illustrations.

Translation of Third edition of the LPE published on Stihi.ru:

1 august 2018 © Oleg Starchen (edition 3.1, text)

Translation of Third edition of the LPE published on Ridero.ru:

2 august 2018 © Oleg Starchen (edition 3.2, text), with illustrations.

Author of the Laphenia understands that the first, second and even third edition of this book devoted to such a complex and multifaceted science, as philosophy, can not be free from shortcomings and mistakes. All comments and suggestions, as on the system of the Laphenia, and on the content of individual articles, as well as indications of possible inaccuracies would be accepted with thanksgivings.

Socratic reductions, some of which are specific only to Laphenia:

ad – our era, ath. – philosophical era,

see – see or see with respect,

i.e. – that is,

old-gr. – see vocable old-gr. philosophical terminology,

lat. – Latin or Latvian,

etc. – and so forth.

Vocables are arranged in alphabetical order without taking into vocables “THE” article, but if vocable is very important, then the article “THE” is in vocable, thus the most important from my point of view vocables are in the chapter “T” of encyclopedia, the rest vocables consists article “the” of the lower case letters.

300 LACONISMS

A

1 the AUTOBIOGRAPHICAL PHILOSOPHY

Philosophers often philosophized based on their biography. For example, Nietzsche (or Nieche) even wrote a whole philosophical autobiography “Ecce homo. How they become themselves.”

2 the AMBER OF PHILOSOPHY

The illustration of the philosophical amber – the real amber. Indeed, it looks like a philosopher’s stone.

Laconic aphorisms is amber of philosophy (etymology of the term amber or the “yantar” – dziņtars, by lat.), philosophy, like the psychological resin of the brain, which heals it from psychological trauma, from mental suffering and from silliness, flows from the soul in philosophy, in writing of literature about the love of wisdom, freezes, petrifies and is immortalized in laconisms. Therefore, the philosophical amber – it is the most notorious “philosopher’s stone”.

3 the ACOUSTICS OF PHILOSOPHY

True philosophy is so loud that its roar has been spreading across the planet for millennia. Phonics philosophy is powerful. And even if this includes the proverb “empty barrel sounds louder”, it is not a simple barrel, but the famous barrel of the great cynic Diogenes.

4 the ALIEN PHILOSOPHY

Even Kant in the “Critique of pure reason” argued that alien beings will have other a priori forms of knowledge than a human. This means that they will necessarily have the functions of the super-consciousness, and their own special, alien philosophy.

5 the ALL POSSIBLE PHILOSOPHY

Zeazrosophy and Orgaosophy is all possible philosophy, because it represents all possible to understanding philosophy.

Note. This includes two proverbs:

α. “Who has what hurts, that’s what he says.”

β. “Everyone understands everything by his spiritual purity, or by his spiritual dirtyty”.

6 the ALL-WORLD-HISTORICAL PHILOSOPHY

The philosophy of the planetary scale is a synonym of the all-world-historical philosophy. See Philosophy of planetary scale.

7 the ANOMALOUS PHILOSOPHY

Zeazrosophy (Zelastrosophy, i.e. Philosophy about supermind) is anomalous for the beginning of the XXI century ad and supernomalous to the end of the XXI century ad

8 the APOTHEOSISOPHY

Apotheosisophy is a synonym of Zelastrosophy, because it is a true apotheosis of philosophy. Nietzsche thought that, allegedly, quote, “God is dead”, but according to apotheosisophy, “God is mad”, i.e. figuratively God is frantic, delirious in present time, God is not as real GOD in present time, but will be that in the future. Of course, these characteristics of God is only philosophical images, philosophical metaphors.

9 the ARCHAIZATION OF PHILOSOPHY

In the twenty-first century is necessary to archaization of the philosophy to the old-gr. level to elevate it to OLD-Gr. level. Modernization of philosophy is dialectical, for upgrade is need archaization. So, now not only of the XXI century A. D. but XXVII century A. Thales too.

10 the ARCHAIC PHILOSOPHY

Philosophy is connected with such art as architecture. This is one of the ideas of archaic philosophy.

Archiepistemology, Archiontology, Archiaesthetics etc. are Archaic and therefore old-gr. philosophies.

11 the ARCHIAXIOLOGY

The etymology of the term: $\alpha\rho\chi\iota$ – main, axiology – the science of values. Conventional axiology – the ordinary philosophy. But Archiaxiology is axiology of Non-Thalesic philosophy, of General theory of supramentality. From the point of view of this philosophy, the main exactly EPISTEMOLOGICAL value is the supramental knowledge obtained as a result of superconsciousness.

12 the ARCHIONTOLOGY

Archiontology ($\alpha\rho\chi\iota$ -main, ontology-the science of objects, according to old-gr.) the ontology of Non-Platonic philosophy that studies the objective supramentality. (subjective studies Archiepistemology). Archiontology dichotomously divided into Superontology – ontology learning of particularly supramental, attain the pure overmind, and Zeazroontology, studying of General Supramentality, attain an infinite continuum of cognition functions.

13 the ARCHIPRAGMATISM

“Truth is defined as usefulness” (Dewey). So Archiepistemology is the great Truth, because the usefulness of its results for humankind will be great. Pragmatism is “the philosophy of the success of human action”, pragmatism is one of the sources of Zelastrosophy, so naturally, Zelastrosophy is the Philosophy of mankind’s success.

14 the ARCHISOPHY

Philosophy is related to such types of art as sculpture and architecture. This is one of the ideas of Arhisophy.

Archisophy means main wisdom, so the term is more powerful than the term Archiphilosophy, which means the main, but only the love of wisdom.

15 the ATTENTIVE PHILOSOPHY

Zelastrosophy brings to the supermind more philosophical attention than other philosophy.

Note. First published: 2012 ©.

16 the ATHLETICS OF PHILOSOPHY

Non-platonic philosophy, Zelastrosophy is athletics of philosophy, making it a powerful. Because “knowledge is power” (Francis Bacon), and supramental knowledge will be superpower (Oleg Starchen). And “if the greater the power, then the greater the responsibility” (Peter Parker). It is therefore necessary not just zeazrovning of mind, but zeazrovning of moral too.

17 the ATOMIA OF PHILOSOPHY

Atomia (undivided, in old-gr.) of philosophy is syncretism, the poor state of philosophy before Non-thalesic philosophy.

18 the AUGMENTATION OF PHILOSOPHY

The augmentation of philosophy is achievable by overcoming it, becoming a conventional philosophy in non-Pythagorean philosophy, which will make it more powerful.

B

19 the BINOMIAL OF PHILOSOPHY

(bi – two, lat., νομ – part, according to old-gr.)

This divide of philosophy into two parts – ordinary (thalesic) and extraordinary (Non-thalesic). Similar in name to Newton's binomial.

20 the BRIGHTING PASSION FOR WISDOM

The Northern lights-a figurative illustration of a bright passion for wisdom.

Fiery passion for “Sophy”. In old-gr. this philosophical expression sounds: Orgaosophy. The General theory of Supramentality not just love, but brighting passion for wisdom, by showing her a supramental infinity, so Zeazrosophy on the philosophical fact is the Orgaosophy. Note. Orgaosophy published for the first time in 2012 A.D. The expression of “philosophy” was expressed by Pythagoras around the VI century BC.

C

21 the CALLIGRAPHY OF PHILOSOPHY

The philosophy of woman, the Philogyneya, is in some sense a calligraphic philosophy, because it produces a description of beauty, which is immanent, is inherent to a woman. Note. As in the book “the Head of Professor Dowel” fantasist Belyaev said to laboratory’s assistant: “you are a woman, and also beautiful, so a woman twice” i.e. WOMAN.

22 the CENOZOIC PHILOSOPHY

The etymology of the term: ceno i.e. καινος – new, zoic i.e. ζοε – life (old-gr.). The philosophy of the new life, Non-Thalesic philosophy, General theory of Supramentality, because of achieving the supermind will begin a new life of mankind, so this mankind become to mindkind with superconsciousness, i.e. with superconscience of zeazrovning Mindkind means mankind with good and gentle mind, i.e. with beautiful mind.

Note. First published in 2012. New life of mankind will be much better and much pleasure, so Cenozoic philosophy is also “Kaifnozoic philosophy” (metagram and comical, humorosophical term).

23 the COMPLAINT PHILOSOPHY

α. According to philosophical philology, the word “complaint” is one of the possible epithets of philosophy (see Epithets of philosophy). As a real example of such ideal philosophy or perfect philosophy – Nietzsche’s quote: “...you understand why I publish this book beforehand: she must NOT allow even the slightest violence against me...” (“HERE’s a MAN! How they become themselves”). Or so said one wonderful girl from the well-known and all-beloved Oscar-awarded film on the city, tears and belief: “if anyone, even with a finger...”

β. The author of the work “Complaint book” is well-known and all-loved Anton Pavlovich Chekhov. Complaint philosophy is a philosophical remake of this work by Chekhov.

24 the CIVILIZATION OF SUPERTHINKERS

It is the civilization of Superhuman based on the Overmind. Knowledge will be enhanced by becoming to superconsciousness; evil will be deactivated; Superhumanity will be able to become the main civilization in the Universe.

25 the CINEMATIC PHILOSOPHY

It is a philosophy that has been influenced by cinema (for example, a remake of philosophy, a philosophical thriller, a philosophical drama, a philosophical comedy, a philosophical tragicomedy, the directing of philosophy, a philosophical director, a philosophical sequel, a philosophical prequel, a philosophical role, a philosophical cameo, etc.).

26 the COMICAL PHILOSOPHY

(exactly comical philosophy, do not confuse with coSmical philosophy)

Such a philosophy is impossible to read or listen to, without laughing at the same time at least sometimes. For example, humorist in philosophy was Nietzsche, and Levin.

Note. That is exactly LeVin (psychologist). In the first edition of the LPE was a misprint.

27 the COURAGE OF PHILOSOPHY

As my colleague, Aristocles Plato, said, “philosophy should not be mediocre, but brave, even shameless.” For example, Philogyneya quite adequate for such teachings of the ancient Greek philosopher. Such courage and shamelessness helps to the progress of philosophy. Note. Quote one Laconian: “I’m not afraid of anything, but that’s what I’m afraid, is that I’m not afraid of anything. But I’m not afraid of anything, so I’m not afraid of that too.”

28 the CHRONOAGNOSTICISM

A clock is not a time machine, but a machine that show’s time, i.e. a clock is an epistemological time machine.

The view that it is impossible to know the future, this chronoagnosticism, futuroagnosticism. Prophetic philosophy overcomes this epistemological pessimism, this epistemological stereotype of philosophy.

D

29 the DRIVING PHILOSOPHY

Orgaosophy in fact is the driving philosophy behind leading the entire philosophy of the XXI century to the XXII century, and even more to the XXVII century, because the XXI century ad (Anno Domini) according to Orgaosophy is the XXVII century ath. (Anno Thales), philosophical era, starting with Thales.

30 the DICHOTOMY OF THE PHILOSOPHY OF ILLUMINATION

The sun shines brightly on everything, but in some places there are shadows.

Nietzsche thought Heraclitus is unique in its sense. Indeed, it is possible to divide dichotomously philosophy not on materialism and idealism, but on the “dark” philosophy (Heraclitus, etc.) and eudiosophy, i.e. clearly understanding philosophy (almost all other philosophers).

31 the DELICACY OF THE PHILOSOPHY

The quality that inherent in the original philosophy is its delicacy, for such a philosophy raises unusual topics and points of view of the philosophical consideration of reality, which may at first glance look as scandalous and shocking.

32 the DEMIURGE OF THE OVERMIND

Natural science’s scientist who will make the final step to creation of supermind, is the demiurge of the overmind in science.

33 the DESPERATE PHILOSOPHY

It’s the philosophy of a desperate man trying to save himself and his sister, who’s disabled.

E

34 the EUROPEIZATION OF SUPRAMENTALISM

Sri Aurobindo Ghosh joined Hegelianism and Indian philosophy and received as a result supramentalism, Europeization of which made Zeazrosophy.

35 the EUROPEIZATION OF PHILOSOPHY

Thales of Miletus and other ancient Greek philosophers carried out the Europeization of philosophy, so that philosophy did not remain the privilege of the East, India and China.

36 the EVIL IS ATAVISM

Gorilla is not so evil as chimpanzee and human. This is because the gorilla is less related to humans than the chimpanzee.

Evil is an atavism, inherited from his evolutionary ancestors, which were not yet social. Therefore, human tries to fight evil, because he lives in a society where evil is not only no longer useful, but also became harmful.

Note. See the book *Categorics*.

37 the EXTRAUNIVERSAL PHILOSOPHY

It is difficult even to imagine on such philosophy. The General theory of supramentality shows that in other Universes will be the superconsciousness abilities, adequate to these Universes.

38 the EUCONFABULATORICS

According to the hygiene and euconfabulatorics, to clear the memory from unnecessary and harmful memories is important just as washing hands.

Diogenes Laertius in his famous book writes that Antisthenes, the founder of cynicism, believed that it was “science to forget unnecessary – the most necessary science”. In this regard, it is interesting to philosophize about such a possible philosophical science. Such a science can be called as Euconfabulatorics. Etymology of the term: “ev” means good (according to old-gr.), “confabulation” (in lat.) means the imaginary memory. Elementary hygiene agrees with Euconfabulatorics, this the most necessary science of Antisthenes.

39 the EMBLEM OF PHILOSOPHY

Let the emblem of a philosophy is the heart and spectacles. The heart symbolizes love, and the spectacles symbolize wisdom, not just a lack of vision.

Review. “On the spectacles... are you sure?”

(Gregory Fox Galaktion, 01.25.2012)

Note. α. This work was first published in 2012. Only later the author learned that the symbol of polyamory (i.e., the theory of love not to a single woman, but to many women at once and at the same time absolutely sincere love) is surprisingly similar to the proposed emblem of philosophy,

namely: the emblem of polyamory – the symbol of the heart, on which is the symbol of infinity. Thus, the emblem of philosophy is the emblem of Philogyneya as polyamory.

β. Here's what about the philosophy's emblem was published after my publication in 2012: <https://otvet.mail.ru/question/89935161>

40 the EPITHETS OF PHILOSOPHY

One of the possible epithets of philosophy – is a sunny philosophy.

(Do not confused with “Epictets of philosophy”, i.e., of the stoic philosophers, variously congenial claiming that happiness is subjective, and not objective, a nominal name from the ancient Roman philosopher Epictetus)

Philosophy deserves many epithets. Therefore, they are multitude in quantity and multitude in quality. For example, concise or laconic philosophy (Laphienia), categorical (Categorics), supramental (Zeazrosophy), imaginary (Orgaosophy), philogynic philosophy (Philogyneya), etc.

41 the ERGAOSOPHY

Έργη or Εργη by old-gr. means “work.” The meaning of Ergaosophy: this is a working philosophy, in contrast to philosophy an idle, in contrast to lazy philosophy.

42 the ESCALATOR OF PHILOSOPHY

Unlike Wittgenstein’s “Logical-philosophical treatise” as a ladder, Zeazrosophy – escalator of philosophy and knowing, self-propelled to the height, to reach the top of philosophy and knowledge.

43 the ETHICS OF IMAGINATION’S IMAGINATION

Such ethics is based on the principle: “imagine the imagination of a person in relation to you, with whom you act, and act so that this person has no reason for the desire to imagine a bad act, word or deed, in relation to you.” Imagination of imagination is empathy. It’s something like of overmibd by Kordemsky, that he meant, however not using this term in the book “Mathematic savvy” in the task of the “Three wise men”, in which the sages laughed.

44 the ETHICS OF TWINGE OF CONSCIENCE

Ethics of twinge of conscience is Zeazrosophy i.e. philosophy about the True over-thinking (zeazrovning). Ethical term the twinge of conscience [literally “zazrenie”] and the epistemological term the zeazrovning [literally “zeazrenie”] differ only in one letter, the letter E. There is a close

metaphysical connection between them. One zeazrovning not enough for the good of mankind, it is necessary also twinge of conscience as genetically innate and inborn function of the psyche of future Superthinkers, coupled to zeazrovning. Otherwise, over-thinking and zeazrovning will be not for good but for evil, not for benefit but for harm.

45 the ETIOLOGY OF EVIL

Human evil is a painful psychological atavism inherited to mankind because of pathological genetic inheritance from ape-like ancestors. This idea was first invented by William Gerald Golding, an authoritative writer. Knowledge of etiology, i.e. the origin of any pathology, helps its diagnosis, prevention, and healing.

46 the EXTRAORDINARY PHILOSOPHY

The philosophy of the XXI century A.D. should be Extraordinary. Ordinary philosophy was previously.

F

47 the FIRST COSMICAL PHILOSOPHY

This is cosmism (of Fedorov, Tsiolkovsky and other cosmists).

48 the FABRIC OF PHILOSOPHY

This is not matter, but Supramentality. From this fabric, it is possible to sew Zeazrosophy, this Royal majestic mantle of philosophy. But would anyone be screamed:

“the King is naked!”

49 the FOUNDER OF THE OVERMIND

The infinity of wisdom, expressed in this illustration, perfectly characterizes the completely Non-Platonic passion of philosophy about Supramentality to wisdom.

In principle, Plotinus was the first founder of overmind in History, but not in Non-Platonic philosophy, so in Neoplatonism. This is a big difference: Neo-Platonism, though “new,” but PLATONISM, and the Non-Platonean philosophy brighting with quite not platonic love and with starry passion for wisdom, i.e. “Sophy”, so it’s Non-Platonically philosophy.

50 the FASHIONABLE PHILOSOPHY

The Eiffel tower initially did not like the Parisians, but eventually became the most fashionable business card of Paris.

Zeazrosophy, Zelastrosophy is fashionable because Superthinkers can be the elite of mankind.

51 the FOCUS OF PHILOSOPHY

Philosophy was purposefully towards Non-Thalesean philosophy (i.e., to the exaggerated philosophy), starting with Thales, to Non-Pythagorean philosophy (Orgaosophy), starting with Pythagoras, to Non-Platoean philosophy, starting with Plato. Thus, Orgaosophy – real PHILOSOPHY, not Platonic philosophy.

G

52 the GREAT PHILOSOPHER

For example, Thales, Pythagoras, Socrates, Plato, Stagirite, Bacon, etc.

53 the GENERAL THEORY OF PHILOSOPHY

It Archisophy uniting ordinary, thalesic philosophy and Non-thalesic philosophy, i.e. Orgaosophy. The main theory of Archisophy – theory of the overmind. The special theory of supermind refers to the ordinary philosophy, General theory of supramentality relates to Orgaosophy.

H

54 the HYPERTROPHIC PHILOSOPHY

Non-Thalesic philosophy is in good sense hypertrophiced Thalesic philosophy.

55 the HOW TO LOVE WISDOM

To philosophize, i.e. to love wisdom, it is necessary to free your mind from the tendency to commonness (or freed from communniss).

56 the HOW TO PHILOSOPHIZE WITH IRON

(parody on Nietzsche)

Philosophical iron or flatiron (i. e, philosophy which is heavy in quality or verbose in quantity) smoothes of brain gyros. Note. For example, a quote from Dumas: listening to “the scientific” (in fact dumb) debate of the scholastics (medieval philosophers) and Aramis, “d’Artagnian felt that he get dumber.” That is famous Socratic irony.

57 the HUNDRED-PERCENT PHILOSOPHY

Philosophy should ideally be 100% and not diluted with unnecessary words and thoughts, i.e. should be laconic, not wordy.

58 the HUMAN PHILOSOPHICAL

A reasonable human, Homo Sapiens turns into a Supramental Human, a Philosophical Human, Homo Philosophiens, to become a Real Human.

59 the HUMAN PHILOSOPHY

The philosophy of the species Homo Sapiens has its own biological feature that distinguishes it from the philosophy of extraterrestrial reasonable beings. Human achievement of supermind will be a very positive, predominant and advantageous feature of Human, and this requires a Supramental philosophy of Human.

60 the HUMOROSOPHY

A statue of Hume in Edinburgh.

Humorosophy – the direction in philosophy, that analyzes two objects in the same time or same theme: Humor and Hume.

α. An example of the study of humor: a research of the Parable about the Philosopher and the Sophy:

Philosopher: Hello, pretty woman. What's your name?

Beauty: – Sophy.

Philosopher: – Then my name is Logy. Come on, Sophy, let's do philosophy, without you would be only philology.

There is an equivoque, a mixture of the meanings of words, as the linguistic philosopher would say.

β. An example of the study of Hume: a research of phrase:

Hume is not humeng (HUMENG i.e. HUME as youNG) and he has a smart hume. (HUME i.e. HUmE's Mind).

This joke is based on the abbreviation.

See also: Symmetry of philosophy and Philogyneya.

Note. The parable about the Philosopher and Sophy was published singly 02.01.2012, Humorosophy first published 04.18.2011.

I

61 the IMAGINARY PHILOSOPHY

Imaginary philosophy is like a kaleidoscope of the beauty of mind and imagination

It is Non-Thalesic, Non-Phitagorasic, Non-Platonic, Non-Socratic philosophy. This is a remake of Lobachevsky's "imaginary geometry", "non-Euclidean geometry". No wonder on the wall of Plato's Academy was written: "not for a non-geometer Enter". The synthesis of geometry and philosophy produced in non-Thalesic philosophy is similar to heterosis, making philosophy much stronger. This NOT-philosophy is actually a NEO-philosophy, new philosophy, neothalesic philosophy, neopythagorean philosophy, neosocratic philosophy, neoplatonic philosophy.

Note. As Einstein said: "imagination is more important than knowledge."

62 the IDEAL OF PHILOSOPHY

Thales, Pythagoras, Socrates, Plato, was embodied the ideals of philosophy, therefore, the rejection of their style so setting a new ideal of philosophy – the Non-Thalesic philosophy, Non-Pythagorean philosophy, Non-Socratic philosophy, Non-Platonic philosophy, or if laconically speaking, Orgaosophy.

63 the IDOLS OF PHILOSOPHY

These idols – philosophy-itself-for-itself, mind-itself-for-itself, man-himself-to-himself, busted in Orgaosophy, Zeazrosophy, Philogyneya.

Note. Nietzsche even wrote a book, "Twilight of the idols or how to philosophize with the hammer", but it's not considered as idols nor philosophy, nor reason, nor an abstract human, otherwise it was he, not I, would be the hammerer of the idols, composing of Orgaosophy (Non-thalesic philosophy), Zelastrosophy (Supramental philosophy), Philogyneya (Philosophy about woman). The same applies to sir Francis Bacon, which exposed the "idols of the square, the idols of race, idols of the theater, idols of the cave", but not the idols of philosophy, not the idols of the mind, not the idols of human, i.e., not busted philosophy, mind, abstract human as idols.
