# General information

Treason of a woman is the most powerful blow to human vanity, because of which the self-esteem of a guy decreases, and also the human ability to interact with the world.

It is worth considering that the betrayal of women is the cause of the destruction of the union between a woman and a man.

Most of all, a man is not able to forgive not only female adultery, but even her hint of what a woman can change. And, as a rule, after this relationship can collapse. For a woman, such a destruction of relationships can result in an incorrect reputation.

Despite today's equality, sexual relations are archaic. In this way, most of all, to change are capable of guys, not women. For the guys, treason is more affordable, and sometimes it can become praiseworthy.

It should be noted that in the marriage relationship, women's infidelity is rarely observed. In most cases, a woman can begin to change if the marriage has begun to crumble.

Naturally, from the fact that the woman begins to change, the men naturally have internal pain. In this case, the guy must either

put up with it, or part with the woman. According to statistics, women are beginning to change because they do not receive enough attention from their husband.

But, despite the fact that a woman changes, this has its positive qualities.

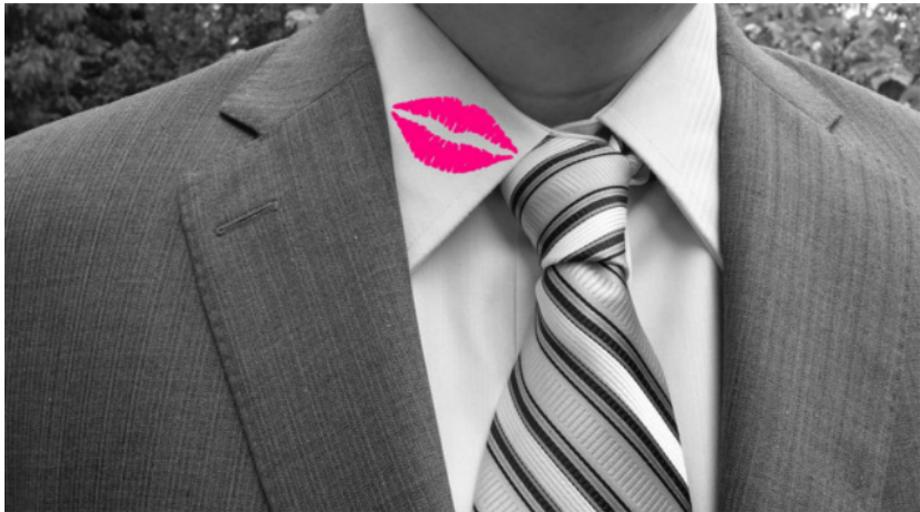

First of all, thanks to feelings of betrayal, a person opens his eyes. He realizes that for several years he lived together not with his beloved woman, but with a man who is completely alien.

After a few years, you will simply be grateful to the woman for what she began to change. After all, then you will be able to rethink everything, and understand what was done not that in the future such principles will be corrected.

However, such arguments from a philosophical point of view require a lot of time, and also forces, to understand why a woman decided to commit treason. And also, what the man did not do that pushed the woman to this step. Such reasoning will help all to comprehend and avoid such errors in the future.

In order to not become a victim of betrayal in family relations, it is necessary before the beginning of marriage, to find out what kind of a woman's betrayal is.

# Causes of betrayal of women

Do not assume that the betrayal of women is the prerogative of men's betrayal. After all, a woman has the same rights to adultery as men. Just take into account that women are capable of treason much less than men.

For women, the most important is the side of emotions, as well as communication. Because of these qualities, a woman can change with the first oncoming guy.

A woman is a creature that will always go where there will always be emotional intimacy and spiritual contact.

If a guy has such qualities, then she will change with him without any hesitation. And most importantly, that for her this man will be as a second family. Next to such a man she will feel mentally relaxed.
