The most erogenous zone of a woman is the brain. With age, this expression is getting closer and closer to the truth. A woman can excite herself excellently and in this her imagination will help her.

Young girls are whimsical in their preferences, and especially in sexual life. The older the woman, the more she is experienced. The more pleasure she gets only from the fact that her partner is satisfied. Women who have already tried a lot, are resourceful in sex. Plus, the woman becomes more relaxed and liberated. And already can afford to enjoy the process and make a whirlwind to his man.

Some ladies can claim that they are frigid and never experienced orgasm.

This is complete nonsense. There are no frigid women. Most likely, she did not come across those men who, due to their inexperience or other reasons, could not give her pleasure. And the lady after that and lives, not knowing that she is able to feel the amazing tides of orgasms.

The fact is that when a woman is in love, she can experience the influx of excitement, communicating with a man who likes her. A woman can come to sexual delight from much. People have different perceptions of the world around them. Each of them can act on a woman like valerian on a seal.

A man can conquer a woman in one form. If he approaches the type of gentlemen from her girlish dreams, then she will close her eyes to his little flaws. She will find in it what will excite her fantasy. These can be beautiful big hands or fingers. The woman herself will think that a man can get up with these hands.
