Аннотация

The e-book represents aphorisms, quotations, maxims and chance thoughts by the author regarding absolutely different topics. Here there are phantasies and illusions, impressions and delusions, love and dreams, instincts and mistakes, will and despair. The long and the short of it, all questions to which the author gives answers every day, every hour and every minute. Sometimes they look like a Zen Buddhist koan, sometimes like a Japanese haiku, sometimes like a Russian proverb.

Chance thoughts

A chance thought does not aspire to be true, just as the truth does not claim to be permanent.

*

Do not stand in the way of a dreamer. His dream may end up being much more powerful than its owner.

*

It really isn't frightening to start something new. No one will notice your mistakes.

*

Behind every excuse follows regret.

*

If your dream comes true, it becomes your friend. If not, it becomes your enemy.

*

A truly lovely girlfriend doesn't always say lovely words.

*

Forgiveness is asked for more often than it's given.

*

In all societies, there are people who need food but not sympathy, and those who need sympathy but not food.

*

My purpose in writing is most definitely not to make you think. For your purpose in thinking is not to make me write.

*

People take the most offence at what they believe in least.

*

No one falls out of love unchanged. But everyone goes back

to their old mistakes.

*

Fear and joy sleep in the same bed.

*

When you roam around someone else's dreams, you never know where you will awake.

*

Desire attracts. Enthusiasm repulses.

*

Sometimes, things don't happen as we would like them to. But we could also see that as luck.

*

A loving thought's aim is the heart.

*

Our mistakes are always a disappointment. But our disappointments are not always a mistake.

*

Style is a personal reality.

*

The more you understand, the less others understand you.

*

If a woman doesn't joke back, it means she doesn't want it.

*

Goodness, how long I have been mistaken! It turns out that I'm good.

*

A person who deceives himself is most afraid of being deceived by someone else.

*

It is harder than anything to deceive a sincere person – he knows what openheartedness is.

*

However healthy your lifestyle is, the worst possibility remains – that people might not like you.

*

Nothing good will happen until you believe in it.

*

Alcohol allows you to love what you fear, and makes you fear what you most love.

*

Sometimes we know whom to phone, but don't know where there are; sometimes we love someone, but don't know whom.

*

To go beyond limits, you must first come to them.

*

There's only one way to change your life. Make it better.

*

No science of survival will replace the love of life.

*

Whatever sort of falsity we could make out of the meaning of life, life itself will be always wonderful.

*

When people fear loss much more than they wish to find something, there begins great mundanity.

*

The power of every government depends on its attitude towards its own culture.

*

My words cost a lot, but for those who understand me, they are free.

*

If you are sad because you know a lot, then nothing that you know is good.

*

The purpose of kind words is to alleviate pain. The target of cruel words is to aggravate joy.

*

When you laugh at unhappy people, happy people laugh at you.

*

Ultimately, whatever you have achieved, it will only be the beginning.
